

SHEIKH MUHAMMAD SUFYAN

Karachi, Pakistan | +92 330 296 3350 | isheikhsufyan@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI and Full Stack Software Engineer with experience shipping production LLM, RAG, multi agent, recommendation, and cloud deployed systems using Python, Node.js, React, LangGraph, Qdrant, MySQL, Redis, and OpenAI APIs.

EDUCATION

Habib University | BS Computer Engineering | 2023 to 2027 | GPA 3.51/4.00 | 100% Merit Scholarship

Relevant Coursework: Data Structures and Algorithms, Artificial Intelligence, Computational Intelligence, Software Engineering, Database Systems, Operating Systems, Object Oriented Programming, Computer Architecture, Engineering Design and Innovation, Web and Mobile Development

EXPERIENCE

Sakeena AI | *Founder and AI Engineer*

Sep 2025 to Present

- Scaled a WhatsApp based AI social platform to 1,000+ organic users across Habib University, IBA, and NED while owning product, backend, AI matchmaking, and production deployment.
- Engineered GPT 4 and Qdrant matchmaking with weighted scoring, filters, and evolutionary algorithms; built Node.js, Redis, and MySQL infrastructure and migrated deployments across Railway, DigitalOcean, Azure, and Heroku.

Rozee.pk | *AI Engineering Intern*

Summer 2025

- Shipped Rozeena to production on Pakistan's largest employment platform, automating job search, resume creation, and loan workflows with GPT 4, Qdrant RAG, WhatsApp, and bilingual voice interactions.
- Researched agentic memory architectures using Mem0 and LangMem and evaluated persistent memory patterns for long running conversational agents.

Zippie | *Founder and Full Stack Developer*

Aug 2024 to Nov 2024

- Generated PKR 2M+ revenue in 5 months after building the MVP in 12 days with React Native, Node.js, and MySQL and deploying backend services on AWS Elastic Beanstalk.

Visch Technologies | *React Developer*

Aug 2022 to Jul 2023

- Earned promotion from Smart Contracts Intern to React Developer; built responsive React and Redux interfaces, maintained frontend architecture, integrated GraphQL and MySQL workflows, and connected ethers.js and Solidity functionality.

Mecanize | *Founder*

- Interviewed and onboarded 500+ automotive mechanics and built a Flutter and Node.js Android marketplace around mechanic discovery and onboarding workflows.

SELECTED PROJECTS

Clue AI | *Multi Agent Consumer Simulation Platform*

- Architected staged population creation, HDBSCAN persona clustering, advertisement simulation, and market analytics agents using LangChain, LangGraph, LangSmith, Qdrant, and genetic algorithms grounded in census, behavioral research, and survey data.

Sahara Bot | *AI Support Assistant*

- Developed a WhatsApp AI assistant for domestic violence support in Pakistan covering mental health guidance, legal rights awareness, and complaint filing workflows.

Evolutionary Pottery Reconstruction | *Computational Intelligence Project*

- Applied genetic and evolutionary algorithms to procedurally reconstruct historical pottery forms using fitness based search and iterative optimization.

TECHNICAL SKILLS

AI and Agentic Systems: LangChain, LangGraph, LangSmith, RAG, Multi Agent Systems, Agentic Workflows, OpenAI API, GPT 4, Prompt Engineering, Mem0, LangMem

Vector Search and ML: Qdrant, Vector Databases, Embeddings, Semantic Search, HDBSCAN, Genetic Algorithms, Recommendation Systems

Languages and Frameworks: Python, JavaScript, Node.js, React, FastAPI, C++, C, GraphQL, REST APIs, JSON

Data and Infrastructure: SQL, MySQL, Redis, Docker, AWS Elastic Beanstalk, Azure, DigitalOcean, Heroku, Railway, Cloud Infrastructure

BUSINESS AND ENGINEERING COMPETENCIES

Cross Functional Leadership, Stakeholder Management, Technical Communication, Public Speaking and Persuasion, Product Strategy, Customer Discovery, Technical Sales, Solution Discovery, Systems Thinking, Engineering Design, Design Thinking, Requirements Gathering, End to End Ownership

AWARDS AND FELLOWSHIPS

I2I Ventures Growth Readiness Fellow | NIC Karachi Foundry Program | Habib University Entrepreneurship Talent Program | IBA 100% Scholarship | LUMS 70% Scholarship | SAT 1370 | Best Delegate x3
